

Tips & Ideas

Appetite for nature

Roast leg of lamb is the epitome of Easter food, and to be absolutely perfect, the meat should be seasoned with rosemary. Tempt your customers with a refined and fragrant rosemary decoration, which can be used as gift idea for Easter get-togethers or to decorate the Easter table before being used in cooking.

What to do, step by step:

- Plant the rosemary in a glass pot
- Cover the soil with a light mulch.
- Birch branches can be lashed together with binding wire and shaped like small spires.
- Tie the spires together and place them around the glass bowl, so that they form a fence for the rosemary plant.
