

## Tips & Ideas

### Fresh and different ideas for Mother's Day gifts

Mother's Day is the ideal occasion for renewing the composition of plant colours and for new ways of using the wide range of exciting Danish plants which are available just now.

#### **Red Euphorbia with heart-shaped sticks**

Place red Euphorbias in a plain, sturdy cache-pot to create contrast to the fine flowers and the fresh, green leaves. Decorate with red, bendable sticks shaped as hearts.

#### **Cheerful, I love you miniature roses**

Plant miniature roses in tall, strong-coloured, connected cache-pots – in different shapes, if you like. Decorate with sticks and pieces of veneer. The giver should write his personal greetings or message before you arrange the transverse sticks.
