

Tips & Id er

Schlumbergera - Novemberkaktus

Tips & Ideas: Tendenza   Samba Brazil (N)

When autumn darkness falls, surrounding yourself with Christmas cacti in lovely, shining colours is excellent therapy. The colours range from white over pink to red; the shape and longevity are also subject to continuous product development. The new Brazil varieties (N) from the nursery Gartneriet Rohde's keep themselves beautifully open and the petals do not tip back, thus providing completely new, different and exciting styling possibilities.

Here, you will find inspiration for a simple and natural decoration which brings light and joy in a dark time:

How to do it:

- Remove the plant from the pot and place it in a cylindrical, transparent cache-pot.
- Attach steel wire to common spruce cones and insert them into the root-ball from the outside all the way round.
- Finish using cones at the top so that the entire root-ball and roots are covered.
